

## Fall Volunteer Training 2021

Hospice of Orange and Sullivan Counties, Inc. provides superior end-of-life care to all veterans. We are seeking veteran volunteers to support veterans in our care through the **"Veteran to Veteran Program."**

This program allows veteran patients to be paired with a volunteer who may have a better understanding of what the veteran has experienced by providing bedside reminiscing, recognition ceremonies, and unique camaraderie support.

Once the prospective volunteer has graduated from the training, they can provide support in the geographic location in which they reside.
